Respect Yourself, Respect Others, Respect Property

Focus: It is the end of the year! It is exciting and a bit sad but also rewarding. We built connections and relationships and that is everything in this year of pandemic. We have grown professionally and personally. We have been pushed to our limits but we have learned to be resilient and keep pushing forward. All staff have done a tremendous and selfless job to keep our students engaged in their learning. Reflect with your students and focus on their strengths and the memorable/positive moments of this unusual year. You are a ROCKSTAR and you deserve a restful and quiet summer. WE DID IT!
